

# TERRACOVER V®

**TERRACOVER V®** is the premium cover system for both outdoor and indoor versions of synthetic turf systems and natural grass fields. Stadium pictures are BC Place in Vancouver, Canada.

**TERRACOVER V®** has an overlapping edge creating a monolithic top surface and a unique cone-filled underside which together gives it a 61,600 lbs psf spread load capacity.

## **TERRACOVER V® (2011)**
