

TERRAFLOR®

TERRAFLOR® uses the same patented feet and cams as **TERRAPLAS®** and is designed for use with both natural and artificial turf fields.

TERRAFLOR® allows the passage of air and light; creating a moist atmosphere under the tile, without any noticeable build-up of heat.

TERRAFLOR® (2002)

Terraflor® Dimensions:

29.31" x 29.31" x 1.31" high. = 5.97 sf of surface

Storage:

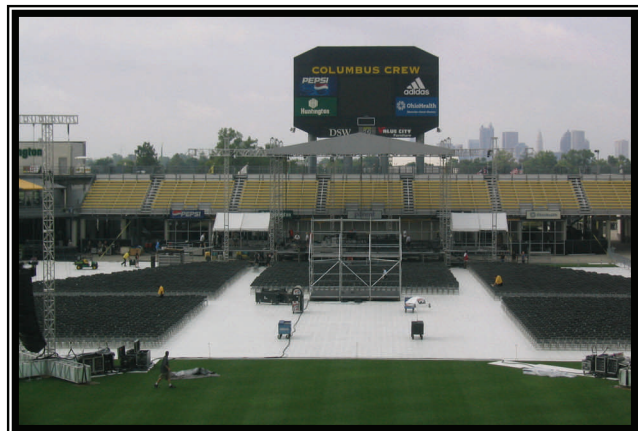

Pinned in blocks of six and placed on pallets 20 high = 716 sq ft per pallet; If stacked 3 pallets high, 19,342 sq ft stores in a 45.5 ft by 7.5 ft footprint.

TERRAFLOR® is second-generation grass cover system; keeping the same basic design features as **TERRAPLAS®**, but adding an overlapping edge.
